Resume Summary

Proficient **Full-Stack Developer** with **2 years and 2 months** of experience specializing in **C#, .NET Core, Angular, and MS SQL Server**. Skilled in designing **efficient backend systems**, integrating **databases**, and optimizing **application performance**. Passionate about **solving complex problems** and delivering seamless **user experiences** through clean, maintainable code. Seeking an opportunity to leverage my expertise in full-stack development to build impactful solutions.

Experience

Software Developer
July 2023 – Present

RBIS Technologies PVT. LTD. — *Pune, Maharashtra, India*

- Collaborated with developers, designers, and stakeholders to successfully deliver 3+ projects, contributing to all phases of the software development lifecycle and ensuring high-quality outcomes.
- Designed and implemented RESTful APIs in .NET Core, enabling efficient data processing and system integration.
- Developed interactive user interfaces using Angular, improving user experience and performance.
- Optimized MS SQL Server queries and database structures to enhance application efficiency and scalability.
- Applied best coding practices, version control (Git), and collaborated with cross-functional teams to ensure high-quality software delivery.

Software Developer Intern
Dec 2022 – Jun 2023

RBIS Technologies PVT. LTD. — *Pune, Maharashtra, India*

- Gained hands-on experience in full-stack development using C#, .NET Core, Angular, and MS SQL Server.
- Contributed to dynamic UIs using Angular and Bootstrap, enhancing user experience and interactivity.
- Collaborated with the team to build RESTful APIs, learning backend and frontend integration.
- Optimized queries and improved MS SQL Server performance, learning database design.
- Participated in team debugging, testing, and deployment, gaining insights into development processes.

Projects

RiderReach | *C#, .Net Core, Dapper, MS-SQL, Redis, Angular, Azure* — **Sept 2024 - Present**

- Developed a Cab Advertising platform that enables businesses to run targeted ad campaigns on tablet screens in cabs, leveraging real-time analytics and dynamic content updates for maximum engagement.
- Designed and implemented Admin, Customer, and Driver modules with Angular, enabling campaign management, analytics, and content control.
- Built backend APIs with .NET Core and Dapper for efficient data retrieval and frontend-MS-SQL communication.
- Implemented Redis caching to enhance performance by storing frequent data, reducing load and response time.
- Collaborated with teams to integrate campaign scheduling, payment processing, and real-time driver status updates.
- Used MS-SQL for data storage and query optimization, ensuring scalability and integrity for large operations.

RCS (Retail Control System) | *Angular, .NET Core, MS SQL, Azure, Bootstrap* — **Jully 2023 - Aug 2024**

- Developed and maintained RCS, an integrated platform to enhance retail operations and management efficiency.
- Implemented core modules including inventory management, sales tracking, and CRM for platform functionality.
- Optimized inventory processes with automated stock updates and alerts, reducing manual errors by 40%.
- Led secure payment system integration, ensuring compliance with industry standards for data security.
- Collaborated with cross-functional teams to design scalable solutions for multi-store management and reporting.
- Improved application performance by optimizing database queries and backend APIs, reducing response times by 20%.

HuntScaler | *Angular, .Net Core, TypeScript, MS-SQL, Bootstrap* — **Dec 2022 - June 2023**

- Developed a comprehensive assessment portal using Angular and Flask, supporting various question types including coding challenges, MCQs, descriptive questions, and fill-in-the-blank exercises.
- Enhanced user experience through dynamic dashboards, advanced data filtering, and robust security measures.
- Improved system performance, achieving a 25% reduction in response time.
- Optimized assessment efficiency with automated invitations and scheduling, streamlining the user journey.
- Implemented role-based access control (RBAC) to manage user permissions, ensuring secure and structured access.

Technical Skills

Languages: C#, TypeScript, JavaScript, HTML, CSS
Frameworks: .NET Core, Angular, Bootstrap, ASP.NET MVC
Database: MS-SQL, PostgreSQL, Azure SQL Database
Developer Tools: Git, Azure DevOps, Postman, Visual Studio Code, Visual Studio, SQL(SSMS)
Cloud & Services: Azure Functions, Azure Blob Storage, Azure App Services, Azure Active Directory

Education

- **Master of Computer Application || K. B. C. North Maharashtra University, Jalgaon** 2021 – 2023
- **Bachelor of Science in Computer Science || Sant Gadge Baba Amravati University, Amravati** 2018 – 2021

Participations

PINNACLE - National Level Competition
05 Sept 2022

School of Computer Science, NMU, Jalgaon, Maharashtra, India

- Demonstrated strong Java programming skills by solving multiple algorithmic and problem-solving challenges.
- Showcased adaptability and technical proficiency in diverse problem sets under competitive conditions.
